THE DAILY SUN, published every morning except Monday, delivered by carrier in the city, or mailed to any part of the United States, postage free, for \$5 a year; \$2.50 six months; \$1.25 three months; or 50 cents for five weeks—strictly in advance.

Reading notices in local columns 10 cents a line for first insertion, and 5 cents for each additional insertion.

Rates for display advertising made known on application.

The Twice-a-Week Sun is an eight-page, forty-column paper, published every Monday and Thursday, and contains all the news of the week, local, state and general, and will be mailed, postage free, to any part of the United States or Canada, for \$3.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

IT IS TIME NOW.

There will be many people who desire to locate in the South next winter, and, as we have said before, the place most desired is Florida. Many well-to-do people of the North are getting anxious to find the place where they can spend their winters without being tied up in the house by the severe cold and snow. Such people can be satisfied by coming to Florida. We have locations to suit the most diversified population, and if we would only let those people know exactly what they can expect, we can rest assured of their coming.

While one may think their own locality is the best, it is a fact that there are many delightful sections of Florida in which to reside.

A map of the country showing the lands, railroads, etc., should be sent out, so that lands for sale could be seen and settlers might make their selections with little trouble. Many people in the North know little of Florida, and there are others who would come here for the winter, at least, if they were only made aware of the facts regarding the State.

This is no surmise, for we have only recently received letters of inquiry regarding the climate and crops of this section from a gentleman who desires to come South with a party to locate where they might have a winter home and cultivate a tract of land. And these people are experienced farmers with sufficient capital to go ahead with business.

AN ADVERTISING THOUGHT.

Dark clouds do not always signify storm. Neither do slow returns from advertising always mean failure.

The American Protective Tariff League has looked after the administration very carefully in the few years past, but will now have to get up some new scheme to convince the Panama Canal Commission that the consumer don't pay the freight.

Marshal Pinkson, who did such a good job in checking the hack drivers from interfering with passengers who got off the cars at this city, has the same power to stop the cruel whipping of horses by these same drivers.

Those pesky germs are causing more trouble. The president of the Iowa State Board of Health has decided that whiskers and mustaches are germ catchers, and all State physicians have got to have clean shaven faces.

Hon. William Jennings Bryan expects to make a tour of the world for the purpose of studying municipal ownership. He might get a few pointers from the Czar of Russia, who thinks he owns the earth.

According to the latest reports the committee report on the insane asylum is not correct, the report on the university is distorted. The conclusion arrived at is: "There ain't nothin' wrong with nobody."

Hoeh, the man of forty wives, says he is ready to die and don't want a new trial. Forty wives ought to be trial enough for one man.

NEW LABOR UNION.

Fearing that Samuel Gompers, the president of the American Federation of Labor, was likely to pass him into oblivion, Eugene V. Debs, the labor agitator, has made himself quite active of late in the organization of a new movement which will slide from the stocks into the sea of labor at Chicago, on the 27th of next month, and be known as the Industrial Union.

While the new movement may be for the betterment of the laboring men of all classes, it is antagonistic to John Mitchell and his United Mine Workers, as well as to Mr. Gompers and his followers, and will have the same color—red—for its emblem as the anarchists the country.

The new union promises some new developments in the line of strikes and predicts plenty of trouble throughout the United States. It wants a more equitable division of the profits from labor, and with no capital invested will experience the same trouble as the older organizations have in asserting their demands by force.

There is a chance for all union men to better themselves, if they exercise good judgment, but the trouble has been in nearly every instance where demands have been made, that judgment has been lacking and the efforts have resulted in failure. There is rarely a case that could not be settled by arbitration, which would result in a saving to both employer and employee, but the trouble rests too often with the leaders, who seem to be determined to rule or ruin.

In recent strike events there has, however, been a strong desire on the part of many union men to arbitrate matters, and as there are many workmen and employers who stand committed to this method of adjusting their troubles, the way does not look so bright for Debs, as he has only 600,000 followers, while President Gompers has over 2,000,000.

The people of Florida, in many of its cities at least, are showing more progress at the present time than any State in the Union. While there are many large concerns being established in the cities, every hamlet has development going on. If the population increases as rapidly in the next five years as it has in the past, it will be shown to all that we have none too many schools for the education of our children.

Germany and France are anxious for a round out of Japan at the present time, because they think the Japs have their hands full. But John Bull says "give the little fellow a show."

Maehen, the postoffice conspiracy chap who is serving two years for his rascality, was handed another two-years' term a few days ago.

The papers that publish the news first will soon be called on by advertisers to place their announcements alongside of fresh news items.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We offer One Hundred Dollars Reward for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure.

Take Hall's Family Pills for constipation.

Commutes Sentence of Tubbs.

Washington, May 24.—President Roosevelt has commuted to expire immediately the sentence of Dr. John F. Tubbs, who has been serving a 5-year sentence at the Leavenworth, Kans., federal prison since January, 1903, on a charge of counterfeiting. Recently during an epidemic of pneumonia at the prison Dr. Tubbs proved himself very useful in the prison hospital, where he was assigned to duty.

KIRKWOOD SCHOOL CLOSED.

Patrons and Pupils Enjoyed a Fine Picnic on Wauburg Lake.

Kirkwood, May 22.—After a most profitable and successful term of eight months, the Kirkwood school closed Friday with a picnic on Wauburg lake, at the "Chamberlain Landing." The day being perfect, patrons, pupils and teacher were there with baskets filled with all manner of good things to eat. In the afternoon ice cream was served free.

A number of the smaller boys and girls donned bathing suits and went in bathing. It was fine sport for them and the older ones enjoyed watching them.

Miss Ruby Hawkins has taught two very successful terms here. She is not only an excellent teacher, but one of the finest girls in the State, and we hope she will return and teach our school next term. She has also been one of our faithful Sunday school teachers. To show their appreciation, this class presented her with a nice book. We regret to have her leave us, but trust to have her with us next winter.

Miss Susie Simpson, one of Gainesville's beautiful and lovable girls, came to the picnic and is visiting Miss Ruby Hawkins. Miss Susie lived here a while back and her many friends were glad to see her again.

Life a Burden

There are times when life seems a burden—when you are tired, worn-out, have dull pains in the head and a continual feeling of uneasiness. You have no appetite, and your digestion is poor; your sleep broken, and you get no rest.

Little annoyances seem great mountains of trouble, and you are blue, melancholy and given over to gloomy forebodings.

This means low vitality—exhausted brain nerves.

For this condition Dr. Miles' Restorative Nervine is a specific; it is a food for the nerves. It builds up the nervous system, and restores lost energy.

Try it to-day and see if your sleep is not sound and refreshing, and the morrow brighter and more hopeful.

"I am glad to announce that I have recovered my health, as far as my advanced age will permit, as I am 83 years old. My case was very bad; my nerves were all shattered. I suffered much pain and coldness; was so weak and felt so sad and lonely and heart-broken. When I commenced taking Dr. Miles' Restorative Nervine I was completely prostrated. I have taken the Restorative Nervine, Heart Cure and Nerve and Liver Pills, and they cured me."
MRS. E. C. BAWLEY,
Waterloo, Ind.

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.
